- .4 OR Approved Equivalent Supplier.

Reference to **Division 1: General, Section 1.12 -- Maintenance of Flow:**

**Item 1.12.4 WWTP and Main SPS Power Shutdown** shall be added as follows:

- .1 The Contractor shall coordinate all power shutdown work with Veolia staff, providing a minimum of three (3) days' written notice prior to commencement of any shutdowns.
- .2 The Blyth Wastewater Treatment Plant (WWTP) supplies power to the Main Sewage Pumping Station (SPS). During any WWTP power shutdowns, the Main SPS will also be without power.
- .3 The Contractor shall be responsible for cleaning out the contents of the Main SPS, including the hauling and disposal of the contents at the Blyth WWTP Sludge Storage Unit **OR** at a minimum shall have a vacuum truck on standby for the duration of each shutdown period.
- .4 The volume of the contents requiring removal from the Main SPS, if any, will depend on the inflow conditions during each shutdown event. The wetwell provides approximately 50 m<sup>3</sup> of storage capacity.
- .5 The address of the Main SPS is 173 Thuell Street, Blyth, ON.
- .6 Refer to the Contract Appendices for drawings of the Main SPS.
