However, if any portion of the interment rights purchased in this contract have been exercised, the contract is deemed to have been fulfilled, and the rights holder no longer has the right to cancel the contract and receive a refund for the rights purchased.

Section E: Resale, Cancellation or Transfer of Interment Rights After the 30-Day Cooling Off Period

Resale of Interment Rights is Permitted:

The rights holder has the right to sell their interment rights to a third party before the rights are exercised, at an amount that is no greater than the price of those rights as indicated on the cemetery's current price list at the time of resale. Before reselling the rights, the rights holder may first inquire whether the cemetery operator is willing to repurchase the rights at a negotiated price. Any resale of interment rights shall be in accordance with the requirements of the cemetery by-laws and in keeping with the FBCSA and Ontario Regulations. All resales of interment rights must be conducted through the cemetery operator.

Requirements of resale

Upon selling the rights to a third-party purchaser, the rights holder must provide the third-party purchaser the following:*

- The interment rights certificate endorsed with the following:
 - o A statement signed by the rights holder selling the rights, acknowledging the sale to the third-party purchaser.
 - o A signed confirmation by the cemetery operator that the person selling the rights is shown as the rights holder in the cemetery's records.
 - o The date on which the rights were sold to the third-party purchaser.
 - o The name and address of the third-party purchaser.

- o A statement of any money owing to the cemetery operator in respect to the rights.
- A written statement of the number of lots that have been used in the plot grounds to which the rights relate and the number of lots that remain available.
- Any other documents in the rights holder's possession relating to the rights.
- A copy of the current cemetery by-laws.

After the rights holder sells the rights to a third-party purchaser but before the purchaser exercises those rights, the purchaser must provide the cemetery operator with the endorsed certificate and any other information that the cemetery operator requires to issue a new certificate in relation to the rights.

Upon completion of the above listed procedures, and upon the issuance of the new interment rights certificate, the third-party purchaser or transferee(s) shall be considered the current interment rights holder(s) of the interment rights, and the resale or transfer of the interment rights shall be considered final in accordance with the cemetery by-laws and the FBCSA.

Transfer of Interment Rights

If an interment rights holder bequeaths their rights in a valid will, the cemetery operator may require a notarized or court-certified copy of the will, a certificate of appointment of estate trustee, or other documentation sufficient to establish the proper transfer. If the rights holder dies intestate, a written request from the estate trustee(s) or, if no one has been appointed, from all heirs-at-law is required.

A rights holder wishing to transfer their rights during their lifetime must notify the cemetery operator in writing. The operator may request reasonable documentation to confirm the transfer is not a resale in contravention of the by-laws.

All transfers must be processed through the cemetery operator. Transfers must comply with the cemetery by-laws, FBCSA, and Ontario Regulation 30/11. Rights that have been partially or fully exercised cannot be transferred or resold.

Administration Fee for resale or transfer:

In the case of a resale or transfer of rights, an administration fee applies for the cemetery operator to issue a new rights certificate and/or duplicate certificate to the third-party purchaser or transferee, as applicable. The fee, which is set out on the cemetery price list, is also charged for replacement of lost or damaged certificates.

Cancellation rights for interment right contracts entered into prior to the allowance of 3rd party resale by the cemetery operator: Rights holders are now permitted resale rights, or they still retain the rights set out in their contract or under previous legislation if written before July 1, 2012. However, if any portion of the interment rights has been exercised, the contract is deemed to have been fulfilled, and the rights holder no longer has the right to cancel the contract and receive a refund for the rights purchased.

Abandoned Interment Rights

Interment rights that have not been exercised for a period of ninety-nine (99) years and for which the rights holder cannot be located may be considered abandoned. The cemetery operator, or their designate, may apply to the Registrar for a declaration of abandonment after making reasonable inquiries and providing notice to locate the rights holder or any beneficiaries. Upon the Registrar issuing a declaration and if no appeal is filed within the specified period, the cemetery operator may resell the abandoned interment rights, in accordance with the Funeral, Burial and Cremation Services Act, 2002, Ontario Regulation 30/11, and the cemetery by-laws.

Authorization, Information and Documents Required for a Burial:

Interment rights holder(s) may be required to provide identification and written direction and authorization prior to a burial, or entombment taking place. Should the interment rights holder be deceased, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder in keeping with the *Succession Law Reform Act* i.e., Personal representative, estate trustee, executor, or next of kin.

A burial permit issued by the registrar general or equivalent document showing the death has been registered with the province must be provided to the cemetery operator's office prior to a

The opening and closing of graves and niches may only be conducted by cemetery staff or those designated by the cemetery manager to do work on behalf of the cemetery.

The cemetery retains the right of passage over every grave so that the cemetery operations may be performed effectively.

The cemetery reserves the right to temporarily relocate a monument or marker if required to open and close a lot. Due to burial requirements, cremated remains entombment in a vault are not permitted to be buried in a grave with casketed remains.

*Where cremated remains are interred prior to casket interment(s), all attempts will be made to locate and temporarily remove urns to facilitate casket burials. For better retrievability of the cremated remains, they should be in an urn or container that is non-biodegradable and is not breakable. There is no guarantee that cremated remains interred in a biodegradable urn or without an urn vault can be retrieved. The cemetery operator is not responsible if there is an issue or failure with the urn or container and there is a leakage of the cremated remains which may not be recoverable. Cremated remains disinterred in advance of a full body burial will be temporarily stored in a secure location, which will be documented by the cemetery operator. There may be additional costs for the cremated remains disinterments as part of the casket opening & closing costs (please see the cemetery price list). Additionally, due to the length of time that a casket, urn, container or vault has been interred and the conditions to which it has been exposed, the cemetery cannot guarantee that it can retrieve the complete casket, urn, container or vault interred in the cemetery. Should a new casket, urn or container be required at the time of disinterment, it shall be at the expense of the party authorizing the disinterment. Additionally, the cemetery operator has the right to request that a licensed funeral director be present for the disinterment at the expense of the party authorizing the disinterment.

Disinterments will be scheduled at a day and time designated by the cemetery operator. The cemetery operator reserves the right to close the cemetery or the section where the disinterment is to take place. Only those persons required or permitted by the cemetery to attend a disinterment shall be allowed to enter the cemetery or the section involved during a disinterment.

Once a disinterment has been completed, the lot space shall be considered available to the interment rights holder for a new interment, transfer or resale in accordance with these by-laws. If the grave, niche or mausoleum space from which a disinterment has occurred, is transferred or resold, the new interment rights holder must be made aware of the previous disinterment and agree in writing to such knowledge as part of the transfer or resale agreement.

The cemetery operator will take reasonable precautions to protect the property of interment rights holders, but it assumes no liability for the loss of, or damage to, any monument, marker or other structure, or part thereof unless it is as a result of negligence by the cemetery.

The cemetery operator reserves the right to determine the maximum size of monuments, number and location on each plot or lot. They must not be of a size that would interfere with any future interments.

All foundations for monuments shall be built by, or contracted to be built for, the cemetery operator at the expense of the interment rights holder.

Should any monument or marker present a risk to public safety because it has become unstable, the cemetery operator shall do whatever it deems necessary by way of repairing, resetting, or laying down the monument or marker or any other remedy so as to remove the risk.

Memorials – monuments, markers, plaques etc. are owned by the interment rights holder and the cemetery operator is not responsible for their loss or deterioration. Interment right holders may wish to consider adding memorials to their own insurance coverage.
